

...delivering exceptional events

The Challenge

We were approached by Calor Gas who had a very specific brief requesting a family day to celebrate 75 years of being in business.

Calor Gas informed us that we needed to cater for around 180 guests.

The brief stated that we would need to incorporate activities which were suitable for adults and children of various ages.

Due to activities requested, location was paramount and we sourced an ideal location and village hall where the day was organised from. With the village hall being the focal point; with a bar & catering facilities ran by the Events Incorporated team.

The Result

We delivered a range of activities which would be suitable for the client age range:

- Circus Skills Workshop
- Laser Clay Pigeon Shooting
- Old School Sports Day
- Giant Games
- Inflatable Pack
- Ice-cream Van

We hosted each event to ensure all the guests knew the content of the event, where the activities were located and timings.

An Event Manager was available on radio contact at all times during the day. Therefore taking the organisation and running of the event out of the clients hands.
